DETAILED ACTION

1. Claims 1-20 have been examined. Application 10/004,281 (INTERACTIVE MEDIA MANAGEMENT SYSTEM AND METHOD FOR NETWORK APPLICATIONS) has a filing date 10/31/2001 Claims Priority from Provisional Application 60244761 (10/31/2000).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Matsumoto et al (U.S. 2004/0111319).

As per claim 1, Matsumoto teaches:

A media management system comprising:

a web-based interface configured to:

provide substantially real-time media pricing (see figure 3);

provide substantially real-time media availability (see figure 3, paragraph 47);

and

facilitate substantially real-time buying of media (see paragraphs 66, 69).

As per claim 2, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is configured to:

provide substantially real-time media pricing for advertising (see paragraphs 48-66);

provide substantially real-time media availability for advertising (see paragraphs 48-66); and

facilitate substantially real-time buying of media for advertising (see paragraphs 66, 69).

As per claim 3, Matsumoto teaches:

The media management system as recited in claim 1, wherein the system is at least partially embedded into at least one inventory sales system of at least one media supplier (see paragraph 45).

As per claim 4, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is configured to use dynamic pricing models that are driven by a degree of targetability selected by a media buyer (see paragraph 66).

As per claim 5, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is further configured to provide real-time monitoring of selected performance statistics at least partially throughout a life of an advertising campaign (see paragraph 8).

As per claim 6, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is further configured to facilitate entry of a media plan profile thereunto (see paragraph 66).

As per claim 7, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is configured to translate media planning variables into pricing and availability for media inventory (see paragraph 69).

As per claim 8, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is configured to facilitate a real-time interactive process of modification and refinement by selecting media related variables and changing the selected variables (see paragraphs 48-66).

As per claim 9, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is configured to facilitate purchasing of media by sending an electronic purchase order (see paragraph 69).

As per claim 10, Matsumoto teaches:

The media management system as recited in claim 1, wherein the web-based interface is configured to distribute request for proposals to a plurality of media suppliers who have inventory which matches a media plan profile (see paragraphs 6, 30 and figure 4).

As per claim 11, Matsumoto teaches:

Art Unit: 3622

A method for managing media, the method comprising:
using a web-based interface to provide substantially real-time media processing;
using the web-based interface to provide substantially real-time media availability; and
using the web-based interface to facilitate substantially real-time buying of media.

The same rejection applied to claim 1 is applied to claim 11.

As per claim 12, Matsumoto teaches:

The method as recited in claim 11, wherein:
using the web-based interface to provide substantially real-time pricing comprises using the web-based interface to provide substantially real-time pricing for advertising;
using the web-based interface to provide substantially real-time media availability comprising using the web-based interface to provide substantially real-time media availability for advertising; and
using the web-based interface to facilitate substantially real-time buying of media comprises using the web-based interface to facilitate substantially real-time buying of media for advertising.

The same rejection applied to claim 2 is applied to claim 12.

As per claim 13, Matsumoto teaches:

The method as recited in claim 11, further comprising at least partially embedding a portion of a media management system into at least one inventory sales

Art Unit: 3622

system of at least one media supplier. The same rejection applied to claim 3 is applied to claim 13.

As per claim 14, Matsumoto teaches:

The method as recited in claim 11, further comprising using dynamic pricing models which are driven by a degree of targetability by a media buyer. The same rejection applied to claim 4 is applied to claim 14.

As per claim 15, Matsumoto teaches:

The method as recited in claim 11, further comprising providing real-time monitoring of select performance statistics at least partially throughout an advertising campaign. The same rejection applied to claim 5 is applied to claim 15.

As per claim 16, Matsumoto teaches:

The method as recited in claim 11, further comprising providing entering of a media plan profile into the web-based interface. The same rejection applied to claim 6 is applied to claim 16.

As per claim 17, Matsumoto teaches:

The method as recited in claim 11, further comprising translating media planning variables into pricing and availability for media inventory. The same rejection applied to claim 7 is applied to claim 17.

As per claim 18, Matsumoto teaches:

The method as recited in claim 11, further comprising facilitating a real-time editorive process of modification and refinement by selecting media related variables

Art Unit: 3622

and by changing the selected variables. The same rejection applied to claim 8 is applied to claim 18.

As per claim 19, Matsumoto teaches:

The method as recited in claim 11, further comprising facilitating purchasing of media by sending an electronic purchase order. The same rejection applied to claim 9 is applied to claim 19.

As per claim 20, Matsumoto teaches:

The method as recited in claim 11, further comprising distributing request for proposals to a plurality of media suppliers who have inventory which matches a media plan profile. The same rejection applied to claim 10 is applied to claim 20.
